

### Instructions for maintaining your ice tub water with AquaFinesse Ice Tub Water Care

Read these instructions carefully for the good and environmentally friendly maintenance of your ice tub water

#### Contents of the AquaFinesse Ice Tub water maintenance package

- 1 litre AquaFinesse Icetubs Water Care liquid
- 1 measuring cup
- 1 instructions for use
- 1 pot of SWE disinfectant granules
- 1 measuring spoon

#### Simple weekly treatment

1. Shake the bottle of AquaFinesse well before use.
2. Weekly (preferably on a fixed day) add the prescribed amount of AquaFinesse Icetubs Water Care to the water using the measuring cup. For the right dosage, see the back of the label. Do not exceed the prescribed dosage.
3. After using the ice tub, add one measuring spoon of disinfectant granulate to the water. Dissolve it first in a small amount of water before adding it to the water. If the ice tub is used intensively, limit the dosage application to three times a week after use.  
When the ice tub is not being used, administer one measuring spoon per week.

**IMPORTANT! Note: Do not use disinfectant (granules) if an ozonator is present in the ice bath!**

Only suitable for an ice bath with a filtration system. Always follow the manufacturer's instructions for the ice bath.

4. Rinse the filter clean weekly, or clean it thoroughly with AquaFinesse Filter Cleaner tablets, and replace it afterwards.

**PURE  
CLEAN  
SIMPLE**

### Tips

- If the ice tub is not being used, make sure it is always closed with the cover. This helps save energy and keeps it clean.
- Change the water in your ice tub every three months.

### Important

- Do not mix AquaFinesse IceTubs Water Care with other (chemical) products.
- If the ice tub has an ozonator, do not use any additional disinfectant.
- Only use AquaFinesse in an official ice tub with a filtration system.
- Store AquaFinesse IceTubs Water Care liquid in the original packaging and ensure that the child-proof cap is properly closed after use.
- Keep out of reach of children.
- If the package is empty, you can dispose of it in the designated container.
